

SOLAR STIK™

# Refrigerator Pak Mini

Item # 005090

## OVERVIEW

The Refrigerator Pak Mini is the solution to portable deep freezing and refrigeration! This refrigerator requires around 25 watts to operate.

The Solar Stik™ Research Team tested this unit for several days. The Refrigerator Pak Mini can run for 24 hours a day with the lowest thermostat setting, and it only consumes about 25 Amp-hours a day.

Why is this important?

A Solar Stik™ will produce an average of 80-100 Amp-hours daily. If the user is running the Refrigerator Pak Mini on a Solar Stik™ System, it leaves a lot of power for other appliances!

A fully charged Power Pak 50 can provide enough power to run the Refrigerator Pak Mini for nearly two days!

The interior has two levels with a removable partition that can divide the interior into a freeze section, and a refrigerator section. The interior has so much room, a standard 2-liter bottle can stand upright.

The Refrigerator Pak is extremely quiet while operating. The only way you'll know it is even working is when you pull out something cold to drink!

## Specifications

Can Capacity	23 (12 oz cans)
Total Volume	.7 cu ft (19 quarts)
Power Source	12/24VDC
Power Consumption	35 watts maximum
Power Connection	8' 12VDC cord
Interior Temperature Range	+50°F to 0°F (+10°C to -18°C) Adjustable via electronic thermostat with LED indicator
Average Run Time	15% at 68° F ambient temperature (41° F thermostat setting) 19% at 86° F ambient temperature (41° F thermostat setting)
Insulation	CFC-free polyurethane foam
Color	Body - pale grey/dark grey   Lid - dark grey
Refrigeration System	<ul style="list-style-type: none"> <li>- Fully hermetic Danfoss BD35F compressor</li> <li>- Integrated control electronics</li> <li>- Low-voltage protection adjustable for consumer or starter battery</li> <li>- Electronic fuse/automatic reverse pole protection</li> <li>- Dynamically ventilated wire condenser</li> <li>- Aluminum rollbond evaporator</li> </ul>
Useable Interior	14" x 13" x 7.8" (355 x 330 x 198 mm)
Exterior Dimensions	18.3" x 16.3" x 11.8" (465 x 414 x 300 mm)
Weight	27 lbs (11.5 kg)
Warranty	2 years warranty on the compressor motor 1 year on everything else
